

Our Mission

The mission of Hopkins House is to develop and operate educational programs and related services that assist children and youth from low-income, working families to achieve, in measurably effective ways, their full intellectual potential beginning in kindergarten through graduation from high school.

Hopkins House is a charitable organization under IRS regulation 501(c)(3). Contributions are tax-deductible to the full extent provided by law.

We Help
Children Grow.

OUR CHILDREN...

The Greatest Gift of All!

HOPKINS HOUSE

A Center for Children and their Families.

We Help Children Grow.

Founded by a group of teachers in 1939, Hopkins House has provided quality education programs and services to children and their families for over 65 years.

Through all these years our vision and focus has remained

steady: To help children and families grow into their full potential.

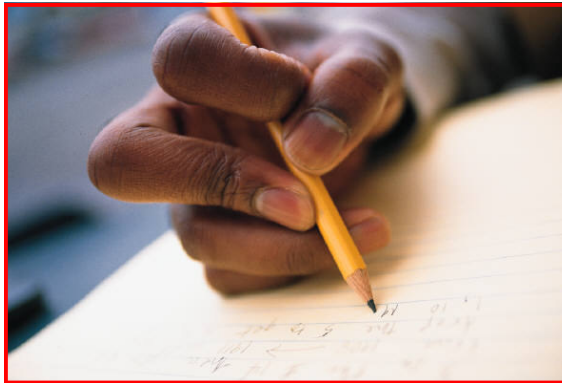

While Hopkins House programs are open to anyone in need, they are especially designed to assist low-income, working families with children— those families that too often fall through the cracks because they earn too much to qualify for most government assistance and earn too little to afford the cost of quality preschool for their children and educational services for themselves.

These families, earning less than \$24,000 a year, live and work in Alexandria, Arlington and Fairfax counties. Their households are headed mostly by single, working mothers; mothers trying to do the best they can for their children and for themselves. These are families not looking for a handout, but rather a helping hand.

Through generous donors like you, Hopkins House is able to offer the help they seek.

Preschool Academy

The Hopkins House Preschool Academy is a true “school.” Our focus, in addition to offering a safe-haven for the children of working parents, is educating and preparing them for the educational challenges they will face in kindergarten and beyond. We begin with children as young as 6 weeks old and continue with them until they enter kindergarten. Studies show that children who attend quality preschools like Hopkins House are less likely to need special education or remedial classes in the future, more likely to graduate from high school and go on to college, more likely to postpone parenthood until an older age and, more likely to own a home.

Financial Literacy

Helping families break the cycle of poverty and achieve self-sufficiency is one of our key goals. We believe education is a proven way to financial success. Through educational workshops on family budgeting, saving to buy a home, reducing debt and achieving financial independence, facilitated by financial planners, bankers, and mortgage and real estate professionals, Hopkins House helps families to learn the skills they seek to accomplish the dreams they have for their children, their families and themselves.

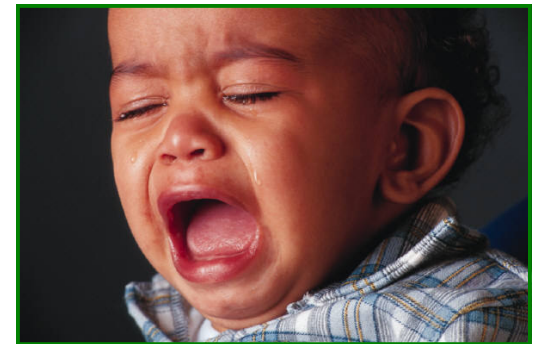

Hope for Families Affected By Violence

With the hope that knowledge can save lives, Hopkins House seeks to increase awareness about the pain and suffering violence inflicts on children and families through

a program established in memory of a 19 year old college student killed in 1999. The Elward J. Alexander Memorial Gift Fund at Hopkins House provides a cash “gift” for the education of a child or teenager whose family has been victim to violent crime. This permanent gift fund enables Hopkins House to reach out to these young people with a message of hope and caring.

Scholarships for Children

We are committed to ensuring that no child or family is deprived of Hopkins House services for lack of ability to pay. Our parents include hotel maids, receptionists, waitresses, restaurant cooks, sales clerks, and working people with modest incomes and enormous love for their children. Through the Children’s Scholarship Fund we are able to assist working, low-income families to afford the cost of quality education services.
